

NEW ATV GUIDE

REQUIRED REGISTRATION PAPERWORK:

Step 1 - Application

The new Motorized Recreational Vehicle application is required for all units that have not been previously registered with the Association. This includes golf carts, atvs, cycles, mopeds, go-karts, snowmobiles, mini-bikes, etc.

Step 2 - Proof of Insurance

A copy of your up-to-date insurance (certificate of public liability) is required to be on file. Insurance policies must be in the Association member's name and show the unit covered.

While being operated, the RV must display a red, orange or yellow visibility flag not less than 6' above ground. For the greatest visibility, it is best practice to place the flag on the driver's side (rear) of the vehicle.

Member's lot numbers must be displayed in at least 3" tall numbers (contrasting with the color of the vehicle) and displayed on **BOTH SIDES** (rear portion) of the unit.

For the greatest visibility, it is best practice to place the Association-issued decal in front of the member's lot numbers on the driver's side of the vehicle.
